

Reduce returns & supplements

Increase parts order values

Gain new shop customers

Your goal: Grow parts sales, right?

The parts sales landscape is shifting and more shops are buying parts online, skipping the inefficient process of ordering over the phone. But what's the next step?

It starts with a number: 90%

It's how many shops begin the parts purchasing process online, where CollisionLink & RepairLink connect dealerships with buyers, growing customers and parts sales.

It's your competitive advantage

41 OEM parts programs provide reimbursements on specified OEM parts, allowing dealerships to offer pricing that competes with the aftermarket.

There's power in numbers

Experience one of the largest buyer networks available, connecting you with customers, increasing sales, and streamlining the parts ordering process.

TESTIMONIALS

Improve customer service

"It's such an easy tool to use; it's so helpful. The main thing is the customers being happy and the customers being able to look up our inventory in real time."

- Aaron S., Stingray Chevrolet

Easy for shops to use

"I can just go right on to RepairLink and I can do everything myself. I know what my targeted part is and I don't have to make that phone call... why wouldn't you do that?"

- Joe F., Owner, Powertech Performance
