

Drive profitability through consistency, efficiency, and quality repairs with EstimateIQ.

# Comprehensive estimates? That's the **easy part now**

It can be difficult for MSOs to capture complete estimates as vehicle complexity outpaces the repair industry and collision centers have more tasks than ever.

- Powered by an intelligent business engine, EstimateIQ provides MSOs with the ability to ensure all relevant operations you are owed for are accounted for, ensuring a complete estimate.
- Cloud-based estimate analysis tool for MSOs.

### EstimateIQ Benefits:

- Driving profitability with an average of \$100+ per estimate reviewed by EIQ, plus a proven average of \$4K+ of additional revenue per month for each location
- Boost efficiency by reviewing estimates in two minutes or less
- Creates consistency across staff with varying experience levels, improving quality
- Maintain compliance with Insurance Partners reducing change requests and supplements
- Easily copy and paste operations from EIQ directly into estimating software
- Easy set-up process with OEC dedicated customer success team

### Key features

**Insurance specificity for each operation:** set values you know will be accepted by carrier partners

**Enhanced intelligence to present only relevant operations to an estimate:** no more pick lists to review

**Comprehensive management reporting for your organization:** transparency down to the individual estimate

**\$100+**  
per  
estimate

**\$4K+**  
additional  
revenue

**60K**  
operations  
identified in 2023
