

d2dexpress®

Make Backorder Fulfillment the Easy Part

D2D Express automatically locates needed parts at the optimal stocking dealer using nightly-updated parts inventory.

Benefits for D2D Express

Sell More Parts

- The first dealer to reply via the system fills the order - there is an option to receive text or email alerts for potential orders.

Fill Backorders Faster

- D2D Express identifies optimal stocking dealers and sends them an electronic request.
- D2D Express continuously monitors dealer requests until a stocking dealer accepts the order.

Reduce Idle Inventory

- If a dealer is an optimal stocking dealer they will be sent an electronic request for the parts.
- Once the order is accepted, it can be easily fulfilled by following the onscreen step-by-step instructions.

More Satisfied Customers

- Customers get back on the road faster because there is less time spent waiting for parts.
