

## d2dlink® | Tire Replenishment Tool

### Go From “Make It Work” to “It Just Works”

The Tire Replenishment Tool eliminates the time-consuming process of keying in daily orders to ensure proper inventory levels. The automated system allows dealers to set a stocking strategy and forget it.

#### Tire Replenishment Tool Benefits

**Access all your orders**  
in one place

**Help dealers achieve their tire program incentives**  
by enabling auto replenishment

**Spend time on your sales strategy**  
not hot shot orders

**Add predictability to scheduling**  
by setting an order schedule

**Increase tire sales**  
by maximizing availability at the dealership

Help dealers set an **automated strategy** by suggesting best-selling tires in the area, recommending quantities to keep on hand, and helping them reach their OEM Program target goals!
