

The OEC® CERTIFIED REPAIR NETWORK Family

OEM Certification has Never Been More Important.

As changes in vehicle technology and repair complexity continue to accelerate, collision repair facilities need to ensure they have the right tools, equipment, training, facilities, and repair procedures to provide consumers with exceptional service and return their vehicles to OEM specifications.

The OEC CRN is working with leading OEMs in North America to identify, certify, and promote thousands of best-in-class repair businesses through our divisions. Certification benefits independent, dealer-owned and multi-location collision repair facilities by providing:

- Differentiation in your market
- Confidence in investments in tooling and training
- Marketing resources
- Improved productivity
- Ability to deliver accurate, quality repairs
- OEM and dealer customer referrals

OEC® CERTIFIED REPAIR NETWORK | Coaching & Consulting Services

From the way your team interacts with customers to how they manage and process repairs, improving shop operations makes a significant impact on your bottom line.

Get your collision facility performing at the highest level! OEC Coaches & Consultants work with your collision team using a consultative approach that moves beyond standard solutions, offering new insights to drive results for independent and dealer-owned collision repair facilities.

OEC Coaching & Consulting helps fill a critical gap in the repair process through:

- Continuing education and technicians training
- Materials designed to keep skills up to date
- Tools & best practices
- Two decades of in-field-experience

With in-depth analysis & industry expertise, OEC helps improve your sales, enhance operating processes, and hit your financial goals by:

- Understanding your critical shop processes
- Identifying operational strengths & weaknesses
- Implementing an action plan

Success is based on many factors, including management practices, departmental processes and, above all else, the people – with OEC Coaching & Consulting, your shop can reach new levels of success.
