

Solution Overview

See it. Reach it. Get it Done.

collisionlink[®]

CollisionLink[®] gives dealers access to OEM collision parts programs, streamlined workflows, visibility to the entire estimate and the shops #1 collision parts ordering solution. We facilitate parts programs for 13 OEMs to help dealers compete with the aftermarket with flexible, competitive pricing and automated OEM reimbursements.

consumerlink[®] *PRO*

ConsumerLink[®] Pro is a complete ecommerce platform that allows you to easily sell OE Parts to online shoppers at prices and shipping rates you choose. Marketing Services offered by our in-house team of Search Engine Optimization and Marketing experts help drive traffic to your ConsumerLink Pro website and keep them coming back.

psxlink

PSXLink combines the power of PSX with the richness of RepairLink and CollisionLink sales data, allowing dealerships to take control of their parts sales business with actionable insights and easy-to-manage customer information.

performancecoaching

Performance Coaching is dedicated in-person coaching for you and your staff with one goal: Sell More Parts. Our team has 12 years of industry experience on average, with over 10+ years of OEC solutions experience.

repairlinkSM

RepairLinkSM helps dealership parts departments build relationships with independent repair facilities by providing the dealer's pricing, availability and parts illustrations online. Shops are accustomed to ordering and pricing parts online; now your dealership can offer the same technology.

d2dlink[®]

D2DLink[®] is more than just a locator. D2DLink is fast and robust, helping dealers better manage their daily parts needs! With D2DLink, dealers can turn to one solution to buy, sell and manage just-in-time part needs – increasing efficiencies, customer satisfaction and profit.

d2dexpress®

D2D Express® is the automated solution that helps parts departments nationwide fill backordered parts in just one day. D2D Express automatically locates needed parts at the optimal stocking dealer using nightly-updated parts inventory, helping dealers and OEMs sell more parts, fill backorders faster, and reduce idle inventory.

dmsconnect®

DMS Connect® streamlines order processing by integrating your dealer management system with OEC. Processing orders directly through OEC gives employees time back in their day to get more done and helps ensure accuracy order after order.

marketplacelocaldirect®

MarketplaceDirect® makes selling parts on eBay easy by automatically adding information and diagrams from the automaker to dealership parts listings. Dealers just need to choose the parts they wish to sell, enter a pricing formula, and MarketplaceDirect does the rest. Dealers instantly gain access to millions of new customers.

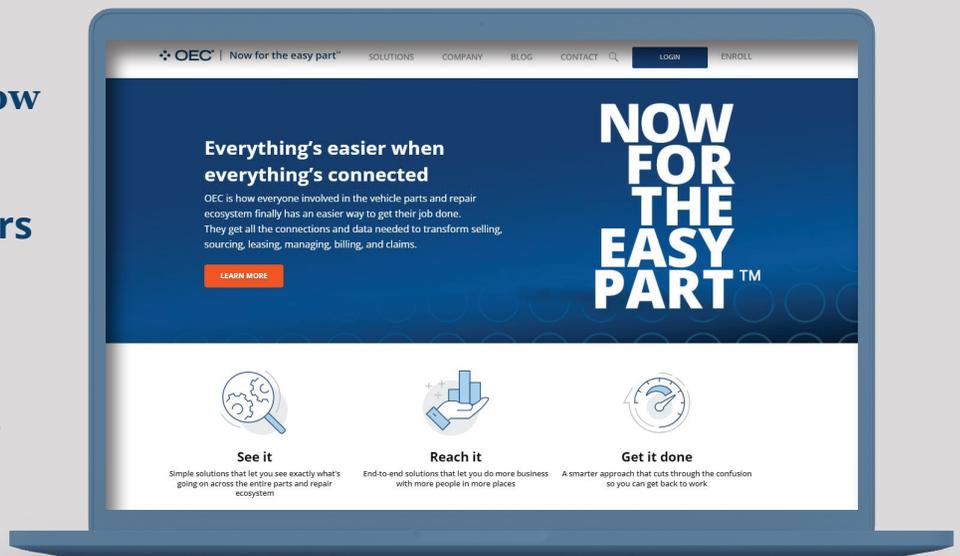

partsbrokerdirect®

PartsBrokerDirect® matches dealers wanting to sell their aging parts inventory with buyers looking to purchase their fast-moving parts at a discount. PartsBrokerDirect moves over \$2M in aged parts inventory each month, providing an accurate, hassle-free way for dealers to help keep the right parts on the shelves.

What is the Plan to Grow Your Business?

50% of shop parts orders are placed after normal business hours

Online parts sales are projected to nearly double in the next 5 years
