

AUDATEX REPAIRER AUDACONNECT AUTHORISATION

In order to use the Bluegrasscomms Vision parts management system, the AudaConnect service provided by Audatex, must be in place.

AudaConnect is used to deliver the secure data transfer from Audaenterprisegold to the VISION system. The data sent will be in line with your VISION agreement, allowing all parties to benefit from improved speed and accuracy of information exchange. Please note all Work Providers will be included unless you specifically list as an exclusion.

The AudaConnect Service will send the following data:

- Repairer Identifiers; postcode, company name, audatex site ID, address
- Assessment Identifiers; assessment number, inspection date
- Vehicle Identifiers; model, build date, vrm, year registered, month registered, vin, manufacturer
- Parts; price, description, part number

The Repairer will use the AudaConnect service under the terms of their existing agreement in place with Audatex.

By signing this document, the Repairer hereby acknowledges and agrees that AudaConnect is a free of charge service which usage is governed by the existing Audatex License Agreement that the Repairer has in place with Audatex, and that the Repairer hereby agrees to be bound by such Audatex License Agreement Terms¹ with regards to its usage of AudaConnect.

Repairer: _____ Audatex Site ID: _____
